Enthusiastic and self-motivated B.Tech Computer Science student (graduating May 2025) with a strong foundation in web development and programming. Skilled in HTML, CSS, JavaScript, and Python (Coursera certified), I am eager to contribute my frontend development and problem-solving abilities to innovative projects. A recent academic project involved designing a responsive website, improving user engagement by 30% and performance by 15%. Passionate about leveraging technology to create impactful solutions, I am ready to excel in a dynamic team environment.

Projects

Personal Portfolio Website

Jan - Feb : 2025

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript to professionally showcase my projects, skills, and achievements, ensuring seamless compatibility across mobile, tablet, and desktop devices for an optimal user experience.
- Optimized website performance by minifying CSS and JavaScript files, compressing images, and leveraging browser caching, achieving a 20% reduction in page load time as measured by Google PageSpeed Insights, while maintaining a modern, visually appealing design.
- Technologies: HTML, CSS, JavaScript, Responsive Design, Web Development, Performance Optimization.

Task Management System

Sep - Dec : 2024

- Developed a full-stack task management web app using HTML, CSS, JavaScript, and Python (Flask) to streamline task organization for small teams.
- Designed a responsive frontend with HTML and CSS, ensuring seamless usability across mobile, tablet, and desktop devices for an optimal user experience.
- Implemented dynamic task addition and deletion features using JavaScript, enabling real-time updates and improving user interaction with the application.
- Built a Python (Flask) backend to handle task storage and retrieval, using JSON for efficient data management and seamless integration.
- Added task prioritization functionality, allowing users to categorize tasks as high, medium, or low priority, enhancing task management efficiency.
- Integrated deadline tracking with a date picker, enabling users to set and sort tasks by due dates, boosting productivity by 25%.

Education

The Imperial Science School

2021

- Gujarat Secondary & Higher Secondary Education Board
- Percentage : 77.40%

2025

Atmiya University

- Bachelor of Technology, Computer Engineering
- CGPA: 7.78

Skills

- Programming
- Adaptability
- Web Development
- Communication Skill
- Problem-solving
- Creativity
- Time Management
